Keep the no call the way it is set up - until these banks or telemarketers pay my phone bill I feel I should have the right to stop their calls. Since Indiana put the do not call into place I have not been bothered with my phone ringing as I come in from work or as I sit down to eat and it's been great - if I'm paying my phone bill I should have the right to say if I want these type of calls or not. Please leave it as it is now.

Thank you - Kathy Haney
